Steve,

When you get a chance can you review these to see if anything jumps out from the G-20 where you had an issue with a group that may be on this list.

Thanks. GG.

Not sure if you have this. For your awareness.

**Intell function for The RNC.** In light of what has taken place the past week the need for real time information and intelligence is critical to all of us. Those working the street and in the Bureau of Traffic need the information you have and may

gather during the RNC immediately. The supervisors/ Commanders assigned to the street and BOT will work thru the info and it will be up to all of you to keep them updated. **This is a mandatory requirement.** I understand clearance issues etc.. but our safety must take priority. Any issue after the fact I will be responsible for.

I have the utmost confidence in all of you assigned to this function. The safety of all of our officers is the top priority. Thanks again to all of you for your hard work
